

2022 Legislative Focus

As we continue to recover from the impacts of the global pandemic, we are focusing on the backbone assets of our community: our abundant natural resources; our world-class educational institutions; and our small businesses, which comprise 90 percent of our members.

Addressing Critical Infrastructure Needs

Protecting our region's abundant natural resources is key to our way of life. We are advocates for the water, wastewater and conservation projects that protect our environment and sustainably build capacity for smart growth.

Expanding Our Talent Pipeline

Recruiting and retaining employees is the number one concern of business, and our children are our employees of the future. We support efforts that promote educational success for all, from early learning programs, quality care and enrichment opportunities for children to superior career and technical programming and best-in-the-world higher education institutions.

Supporting Our Community

Local businesses are the backbone of our community, and we stand up for the policies that allow our entrepreneurs to thrive and that improve the physical and mental well-being of all our neighbors.

Do You Have an Issue You'd Like Us to Follow?

Let us know if there is an issue or appropriation you'd like us to track during this Legislative Session, and watch for our Weekly Legislative Updates.
