## Jones Edmunds Serves as Mentor in NASA Mentor-Protégé Program

**Titusville, April 23, 2021:** Jones Edmunds & Associates, Inc. and Drummond Carpenter, PLLC are pleased to announce that our firms have been approved to participate together in the National Aeronautics and Space Administration (NASA) Mentor-Protégé Program (MPP). NASA's MPP is focused on helping develop the agency's small business supplier base. The agreement is approved for 24 months after the incorporation of the agreement into a contractual vehicle. As a participant in the NASA MPP, Mentors and Protégés are expected to engage in activities that will build successful business relationships that benefit the Mentor (Jones Edmunds), the Protégé (Drummond Carpenter), and NASA.

Doug Toth, PhD, PE

Jones Edmunds is a NASA-approved mentor and has served NASA for nearly 30 years including service on multiple 5-year NASA Civil IDIQ contracts. Drummond Carpenter is an established Service-Disabled Veteran Owned Small Business (SDVOSB) with experience working for NASA in a subconsultant role. Jones Edmunds and Drummond Carpenter offer a strong synergy of the capabilities and services as both are licensed professional civil and environmental engineering consulting companies providing services to federal, state, municipal, public, and private clients. Doug Toth, PhD, PE, Sr. Vice President with Jones Edmunds, said, "We are honored to expand our long-standing relationship with NASA through our participation in the Mentor-

Protégé Program and look forward to working closely with Drummond Carpenter on the broad range of projects we can support through this relationship."

Jones Edmunds will provide the necessary technical training, development, guidance, and resources to enable Drummond Carpenter to expand their capabilities so that they can successfully perform as a future prime contractor to NASA. Drummond Carpenter is a partner that can reciprocate by providing additional depth in areas such as environmental remediation and green infrastructure design. Chad Drummond, PE, D.WRE, BCEE, Principal with Drummond Carpenter, stated, "We are excited to enhance our relationship with Jones Edmunds and further the opportunity to serve NASA through the Mentor-Protégé Program."

D.WRE, BCEE

A virtual signing ceremony was held on April 22, 2021 to formalize our relationship and further highlight this important program.

###

**About Jones Edmunds:** Jones Edmunds is a Florida-based engineering consulting firm serving large and small governmental, industrial, and commercial clients. Since its founding in 1974, the privately-held company remains dedicated to its core values of Integrity, Knowledge, and Service. With seven offices in Florida, Jones Edmunds provides services in water resources, utilities, civil/environmental, solid waste, GIS, and construction administration. Jones Edmunds is nationally ranked by *Engineering News-Record*

among the Top 500 Design firms and the Top 200 environmental firms in the United States. For more information, visit [www.jonesedmunds.com](http://www.jonesedmunds.com).

**About Drummond Carpenter:** Established in 2016, Drummond Carpenter is a service-disabled veteran-owned small business (SDVOSB) and a respected water resources engineering and design firm with expertise in hydrogeology, groundwater modeling, green infrastructure, low impact design (LID), stormwater management, water quality analysis, BMP evaluation, and hydrologic monitoring. Drummond Carpenter is headquartered in Orlando, Florida with offices in Florida and Michigan. For more information, visit [www.drummondcarpenter.com](http://www.drummondcarpenter.com).
